IMMUNOLOGY

CONTENTS

Vol 84, No 1, January 1995

Rapid communications

1 **A. Satoskar & J. Alexander:** Sex-determined susceptibility and differential IFN-γ and TNF-α mRNA expression in DBA/2 mice infected with *Leishmania mexicana*

5 **Y. Katz, R. A. Wetsel, M. Schlesinger & Z. Fishelson:** Compound heterozygous complement C3 deficiency

8 **A. Ianaro, D. Xu, C. A. O'Donnell, M. di Rosa & F. Y. Liew:** Expression of TGF-β in attenuated *Salmonella typhimurium*: oral administration leads to the reduction of inflammation, IL-2 and IFN-γ, but enhancement of IL-10, in carrageenin-induced oedema in mice

16 **C. A. Hunter, E. Candolfi, C. Subauste, V. van Cleave & J. S. Remington:** Studies on the role of interleukin-12 in acute murine toxoplasmosis

21 **A. P. Cope, D. Aderka, D. Wallach, M. Kahan, N. R. Chu, F. M. Brennan & M. Feldmann:** Soluble TNF receptor production by activated T lymphocytes: differential effects of acute and chronic exposure to TNF

31 **M. Cumberbatch & I. Kimber:** Tumour necrosis factor-α is required for accumulation of dendritic cells in draining lymph nodes and for optimal contact sensitization

36 **V. B. Weg, D. T. Walsh, L. H. Faccioli, T. J. Williams, M. Feldmann & S. Nourshargh:** LPS-induced ^{111}In-eosinophil accumulation in guinea-pig skin: evidence for a role for TNF-α

41 **A. M. Das, T. J. Williams, R. Lobb & S. Nourshargh:** Lung eosinophilia is dependent on IL-5 and the adhesion molecules CD18 and VLA-4, in a guinea-pig model

47 **H. Harris & M. Miyasaka:** Reversible stimulation of lymphocyte motility by cultured high endothelial cells: mediation by L-selectin

55 **S. T. Woolley, A. Whyte, S. T. Licence, D. O. Haskard, F. B. P. Wooding & R. M. Binns:** Differences in E-selectin expression and leucocyte infiltration induced by inflammatory agents in a novel subcutaneous sponge matrix model

64 **K. Arai, T. Iiai, M. Nakayama, K. Hasegawa, K. Sato, K. Ohtsuka, H. Watanabe, T. Hanyu, H. E. Takahashi & T. Abo:** Adhesion molecules on intermediate TCR cells. I. Unique expression of adhesion molecules, CD44$^+$ L-selectin$^-$, on intermediate TCR cells in the liver and the modulation of their adhesion by hyaluronic acid

72 **A. A. Irani, G. Nilsson, L. K. Ashman & L. B. Schwartz:** Dexamethasone inhibits the development of mast cells from dispersed human fetal liver cells cultured in the presence of recombinant human stem cell factor

79 **M.-J. C. van Lierop, P. R. Nilsson, J. P. A. Wagenaar, J. M. van Noort, J. D. M. Campbell, E. J. Glass, I. Joosten & E. J. Hensen:** The influence of MHC polymorphism on the selection of T-cell determinants of FMDV in cattle

86 **V. Haridas & R. K. Saxena:** Role of major histocompatibility complex class I antigens in modulating the performance of murine tumour cells in cold target competition assays

91 **J. A. Higgins, J. R. Lamb, R. A. Lake & R. E. O'Hehir:** Polyclonal and clonal analysis of human CD4$^+$ T-lymphocyte responses to nut extracts

98 **M. E. Munk & S. H. E. Kaufmann:** Human cord blood T-cell receptor $\alpha\beta$ cell responses to protein antigens of *Paracoccidioides brasiliensis* yeast forms

105 **G. Häcker, S. Adam & H. Wagner:** Interaction between $\gamma\delta$ T cells and B cells regulating IgG production

111 **P. Ifversen, C. Mårtensson, L. Danielsson, C. Ingvar, R. Carlsson & C. A. K. Borrebaeck:** Induction of primary antigen-specific immune responses in SCID-hu-PBL by coupled T–B epitopes

117 **K. Yoshida, M. Kaji, T. Takahashi, T. K. van den Berg & C. D. Dijkstra:** Host origin of follicular dendritic cells induced in the spleen of SCID mice after transfer of allogeneic lymphocytes

127 **L. Lu, M. Hsieh, T. B. Oriss, P. A. Morel, T. E. Starzl, A. S. Rao & A. W. Thomson:** Generation of DC from mouse spleen cell cultures in response to GM-CSF: immunophenotypic and functional analyses

135 **E. L. Padgett & S. B. Pruett:** Rat, mouse and human neutrophils stimulated by a variety of activating agents produce much less nitrite than rodent macrophages

142 **J. W. Upham, D. H. Strickland, N. Bilyk, B. W. S. Robinson & P. G. Holt:** Alveolar macrophages from humans and rodents selectively inhibit T-cell proliferation but permit T-cell activation and cytokine secretion

148 **M. R. I. Young & J. P. Matthews:** Serotonin regulation of T-cell subpopulations and of macrophage accessory function

153 **K. Kuroda, K. Yamashina, N. Kitatani, A. Kagishima, T. Hamaoka & Y. Hosaka:** Characterization of defectiveness in endogenous antigen presentation of novel murine cells established from methylcholanthrene-induced fibrosarcomas

159 **R. Mocikat, C. Kardinal, P. Lang, R. Zeidler & S. Thierfelder:** Unaltered immunoglobulin expression in hybridoma cells modified by targeting of the heavy chain locus with an integration vector

164 **M. R. Jacquier-Sarlin, F. M. Gabert, M.-B. Villiers & M. G. Colomb:** Modulation of antigen processing and presentation by covalently linked complement C3b fragment

171 **Editorial acknowledgment**

172 **Addendum**

Vol 84, No 2, February 1995

Rapid communication

173 **D. Xu & F. Y. Liew:** Protection against leishmaniasis by injection of DNA encoding a major surface glycoprotein, gp63, of *L. major*

177 **C. Henne, F. Schwenk, N. Koch & P. Möller:** Surface expression of the invariant chain (CD74) is independent of concomitant expression of major histocompatibility complex class II antigens

183 **K. E. Hedin, M. W. Appleby & D. E. Clapham:** Developmental regulation of TCR–CD3-dependent $[Ca^{2+}]_i$ responses of individual normal and $pp59^{fyn}$-deficient T lymphocytes

193 **C. P. M. Broeren, M. H. M. Wauben, M. A. Lucassen, M. van Meurs, P. J. S. van Kooten, C. J. P. Boog, E. Claassen & W. van Eden:** Activated rat T cells synthesize and express functional major histocompatibility class II antigens

202 **R. L. Beavil, P. Graber, N. Aubonney, J.-Y. Bonnefoy & H. J. Gould:** CD23/FcεRII and its soluble fragments can form oligomers on the cell surface and in solution

207 **J. Laufer, H. Boichis, N. Farzam & J. H. Passwell:** IgA and IgG immune complexes increase human macrophage C3 biosynthesis

213 **J. M. Weiler, R. E. Edens, C. S. Bell & G. J. Gleich:** Eosinophil granule cationic proteins regulate the classical pathway of complement

220 **D. Lloyds, N. J. P. Brindle & M. B. Hallett:** Priming of human neutrophils by tumour necrosis factor-α and substance P is associated with tyrosine phosphorylation

227 **A. M. Zeillemaker, F. P. J. Mul, A. A. G. M. Hoynck van Papendrecht, T. W. Kuijpers, D. Roos, P. Leguit & H. A. Verbrugh:** Polarized secretion of interleukin-8 by human mesothelial cells: a role in neutrophil migration

233 **H. Sato & H. Kamiya:** Role of epidermal Langerhans' cells in the induction of protective immunity to *Schistosoma mansoni* in guinea-pigs

241 **L. M. Liu & G. G. MacPherson:** Antigen processing: cultured lymph-borne dendritic cells can process and present native protein antigens

247 **Y. Harada, S. Nagao, M. Nakamura, F. Okada & Y. Tanigawa:** Effect of lipopolysaccharide on thymidine salvage as related to macrophage activation

254 **J. Shen, J. M. Devery & N. J. C. King:** Adherence status regulates the primary cellular activation responses to the flavivirus West Nile

265 **M. C. Kuppner, S. McKillop-Smith & J. V. Forrester:** TGF-β and IL-1β act in synergy to enhance IL-6 and IL-8 mRNA levels and IL-6 production by human retinal pigment epithelial cells

272 **C. Driessen, K. Hirv, H. Kirchner & L. Rink:** Zinc regulates cytokine induction by superantigens and lipopolysaccharide

278 **Y. Kawano, T. Noma, K. Kou, I. Yoshizawa & J. Yata:** Regulation of human IgG subclass production by cytokines: human IgG subclass production enhanced differentially by interleukin-6

285 **L. Kolbe, C. H. Heusser & E. Kölsch:** Isotype-associated recognition of allergen epitopes and its modulation by antigen dose

290 **R. Hussain, B. Menz, H. M. Dockrell & T. J. Chiang:** Recognition of *Mycobacterium leprae* recombinant 18 000 MW epitopes by IgG subclasses in leprosy

298 **G. B. Lipford, S. Bauer, H. Wagner & K. Heeg:** Peptide engineering allows cytotoxic T-cell vaccination against human papilloma virus tumour antigen, E6

304 **G. F. Hoyne & W. R. Thomas:** T-cell responses to orally administered antigens. Study of the kinetics of lymphokine production after single and multiple feeding

310 **R. M. Pemberton & R. A. Wilson:** T-helper type-1-dominated lymph node responses induced in C57BL/6 mice by optimally irradiated cercariae of *Schistosoma mansoni* are down-regulated after challenge infection

317 **S. Nabeshima, K. Hiromatsu, G. Matsuzaki, A. Mukasa, H. Takada, S. Yoshida & K. Nomoto:** Infection of *Mycobacterium bovis* bacillus Calmette–Guérin in antibody-mediated γδ T-cell-depleted mice

322 **T. Biswas, S. Roy & K. K. Banerjee:** L-Rhamnose inhibits proliferation of murine splenocytes by the lipopolysaccharide and polysaccharide moiety of *Shigella dysenteriae* type 1 lipopolysaccharide

326 **C. Southern, P. C. Wilkinson, K. M. Thorp, L. K. Henderson, M. Nemec & N. Matthews:** Inhibition of protein kinase C results in a switch from a non-motile to a motile phenotype in diverse human lymphocyte populations

333 **E. Kobayashi, N. Kamada, L. Delriviere, R. Lord, S. Goto, N. I. Walker, S. Enosawa & M. Miyata:** Migration of donor cells into the thymus is not essential for induction and maintenance of systemic tolerance after liver transplantation in the rat

337 **S. M. Viselli, S. Stanziale, K. Shults, W. J. Kovacs & N. J. Olsen:** Castration alters peripheral immune function in normal male mice

Vol 84, No 3, March 1995

343 **E.-M. Zhou & F. T. Kisil:** Regulation of levels of serum antibodies to ryegrass pollen allergen *Lol p*IV by an internal image anti-idiotypic monoclonal antibody

350 **A. Baz, A. Hernández, S. Dematteis, H. Carol & A. Nieto:** Idiotypic modulation of the antibody response of mice to *Echinococcus granulosus* antigens

355 **F. Dieli, G. L. Asherson, C. T. Bonanno, G. Sireci & A. Salerno:** Major histocompatibility complex control of the class of the immune response to the hapten trinitrophenyl

360 **A. Sjölander, R. Andersson, M. Hansson, K. Berzins & P. Perlmann:** Genetic restriction and specificity of the immune response in mice to fusion proteins containing repeated sequences of the *Plasmodium falciparum* antigen Pfl55/RESA

367 **C. M. S. Brown, K. J. Fitzgerald, S. P. Moyes, R. A. Mageed, D. G. Williams & R. N. Maini:** Sequence analysis of immunoglobulin heavy-chain variable region genes from the synovium of a rheumatoid arthritis patient shows little evidence of mutation but diverse CDR3

375 **H. E. Broome, C. M. Dargan, E. F. Bessent, S. Krajewski & J. C. Reed:** Apoptosis and Bcl-2 expression in cultured murine splenic T cells

383 **B. Motyka & J. D. Reynolds:** Rescue of ileal Peyer's patch B cells from apoptosis is associated with the induction of Bcl-2 expression

388 **A. Rebollo, C. Pitton, A. García, J. Gómez & A. Silva:** A role for the intermediate affinity IL-2R in the protection against glucocorticoid-induced apoptosis

396 **J. W. K. Chu & F. J. Sharom:** Ganglioslides interact with interleukin-4 and inhibit interleukin-4-stimulated helper T-cell proliferation

404 **A. Salerno, F. Dieli, G. Sireci, A. Bellavia & G. L. Asherson:** Interleukin-4 is a critical cytokine in contact sensitivity

410 **M. G. Buckley, C. M. M. Williams, J. Thompson, P. Pryor, K. Ray, J. H. Butterfield & J. W. Coleman:** IL-4 enhances IL-3 and IL-8 gene expression in a human leukemic mast cell line

416 **A. Gessner, A. Will, M. Vieth, K. Schröppel & M. Röllinghoff:** Stimulation of B-cell lymphopoiesis by interleukin-7 leads to aggravation of murine leishmaniasis

423 **A. M. Cooper, A. D. Roberts, E. R. Rhoades, J. E. Callahan, D. M. Getzy & I. M. Orme:** The role of interleukin-12 in acquired immunity to *Mycobacterium tuberculosis* infection

433 **R. O. Williams, J. Ghrayeb, M. Feldmann & R. N. Maini:** Successful therapy of collagen-induced arthritis with TNF receptor–IgG fusion protein and combination with anti-CD4

440 **E. B. Peat, N. H. Augustine, W. K. Drummond, J. F. Bohnsack & H. R. Hill:** Effects of fibronectin and group B streptococci on tumour-necrosis factor-α production by human culture-derived macrophages

446 **W. W. Zhong, P. A. Burke, M. E. Drotar, S. R. Chavali & R. A. Forse:** Effects of prostglandin E_2, cholera toxin and 8-bromo-cyclic AMP on lipopolysaccharide-induced gene expression of cytokines in human macrophages

453 **D. Male, J. Rahman, A. Linke, W. Zhao & W. Hickey:** An interferon-inducible molecule on brain endothelium which controls lymphocyte adhesion mediated by integrins

461 **Y. Kusama, M. Takamoto, T. Kasahara, K. Takatsu, H. Nariuchi & K. Sugane:** Mechanisms of eosinophilia in BALB/c-*nu*/+ and congenitally athymic BALB/c-*nu*/*nu* mice infected with *Toxicara canis*

469 **H. Ushio, S. Hirota, J. Jippo, S. Higuchi, K. Kawamoto, Y. Kitamura & H. Matsuda:** Mechanisms of eosinophilia in mice infected with larval *Haemaphysalis longicornis* ticks

476 **M. Conde, J. Andrade, F. J. Bedoya, C. Santa Maria & F. Sobrino:** Inhibitory effect of cyclosporin A and FK506 on nitric oxide production by cultured macrophages. Evidence of a direct effect on nitric oxide synthase activity

482 **T. Vogel, S. Norley, B. Beer & R. Kurth:** Rapid screening for Mamu-A1-positive rhesus macaques using a SIVmac Gag peptide-specific cytotoxic T-lymphocyte assay

488 **L. Corlett & D. H. Davies:** Reduced lysis by $CD8^+$ cytotoxic T cells in mixed lymphocyte reactions induced via $CD4^+$ T cells exposed to chemically modified antigen presenting cells

495 **D. P. Lunn, J. T. McClure, C. S. Schobert & M. A. Holmes:** Abnormal patterns of equine leucocyte differentiation antigen expression in severe combined immunodeficiency foals suggests the phenotype of normal equine natural killer cells

Vol 84, No 4, April 1995

Rapid communications

501 **P. D. Katsikis, S. B. A. Cohen, J. G. Murison, J. Uren, L. M. Hibbert, R. E. Callard, F. Di Padova, M. Feldmann & M. Londei:** Human αβ T-cell receptor CD4–CD8 T-cell clones are predominantly Th0-like

505 **C. R. Wira & R. M. Rossoll:** Antigen-presenting cells in the female reproductive tract: influence of sex hormones on antigen presentation in the vagina

509 **L. K. Myers, H. Miyahara, K. Terato, J. M. Seyer, J. M. Stuart & A. H. Kang:** Collagen-induced arthritis in B10.RIII mice ($H\text{-}2^r$): identification of an arthritogenic T-cell determinant

514 **M. McDonagh & E. B. Bell:** The survival and turnover of mature and immature CD8 cells T cells

521 **M. H. M. Heemskerk, H. M. Schoemaker, W. J. M. Spaan & C. J. P. Boog:** Predominance of MHC class II-restricted $CD4^+$ cytotoxic T cells against mouse hepatitis virus A59

528 **E. Ayroldi, L. Cannarile, F. D'Adamio & C. Riccardi:** Superantigen-induced peripheral T-cell deletion: the effects of chemical modification of antigen-presenting cells, interleukin-4 and glucocorticoid hormones

536 **P. H. Hart, M. J. Ahern, M. D. Smith & J. J. Finlay-Jones:** Comparison of the suppressive effects of interleukin-10 and interleukin-4 on synovial fluid macrophages and blood monocytes from patients with inflammatory arthritis

543 **Y. Shoji, Y. Uedono, H. Ishikura, N. Takeyama & T. Tanaka:** DNA damage induced by tumour necrosis factor-α in L929 cells is mediated by mitochondrial oxygen radical formation

549 **J. Champsi, L. S. Young & L. E. Bermudez:** Production of TNF-α, IL-6 and TGF-β, and expression of receptors for TNF-α and IL-6, during murine *Mycobacterium avium* infection

555 **D. P. Harris, H.-M. Vordermeier, A. Arya, C. Moreno & J. Ivanyi:** Permissive recognition of a mycobacterial T-cell epitope: localization of overlapping epitope core sequences recognized in association with multiple major histocompatibility complex class II I-A molecules

562 **N. Rosenblatt, K.-U. Hartmann & F. Loor:** Development of grafted *gld* cells in athymic and euthymic recipients

571 **J.-M. Li, P. Isler, J.-M. Dayer & D. Burger:** Contact-dependent stimulation of monocytic cells and neutrophils by stimulated human T-cell clones

577 **A. Klein, F. Q. Cunha & H. Ferreira:** The role of lymphocytes in the neutrophil migration induced by ovalbumin in immunized rats

585 **R. C. Howe, A. Wondimu, A. Demissee & D. Frommel:** Functional heterogeneity among $CD4^+$ T-cell clones from blood and skin lesions of leprosy patients. Identification of T-cell clones distinct from Th0, Th1 and Th2

595 **T. Mattern, C. Reich, M. Duchrow, S. Ansorge, A. J. Ulmer & H.-D. Flad:** Antibody-induced modulation of CD26 surface expression

601 **T. Iiai, M. Kimura, Y. Kawachi, K. Hirokawa, H. Watanabe, K. Hatakeyama & T. Abo:** Characterization of intermediate T-cell receptor cells expanding in the liver, thymus and other organs in autoimmune *lpr* mice: parallel analysis with their normal counterparts

609 **E. Churaqui, M. Oukka, F. Tilloy, E. Mayadoux, M. Bruley-Rosset & K. Kosmatopoulos:** The Jα segment contributes to the affinity of $J\beta6^+$ cells for vSAG-7 ($Mls\text{-}1^a$) presented by I-A molecules

619 **T. Seya, M. Kurita, T. Hara, K. Iwata, T. Semba, M. Hatanaka, M. Matsumoto, Y. Yanagi, S. Ueda & S. Nagasawa:** Blocking measles virus infection with a recombinant soluble form of, or monoclonal antibodies against, membrane cofactor protein of complement (CD46)

626 **M. Kitamura, M. Namiki, K. Matsumiya, K. Tanaka, M. Matsumoto, T. Hara, H. Kiyohara, M. Okabe, A. Okuyama & T. Seya:** Membrane cofactor protein (CD46) in seminal plasma is a protasome-bound form with complement regulatory activity and measles virus neutralizing activity

633 **H. Wada, T. Ono, A. Uenaka, M. Monden & E. Nakayama:** Requirement of $CD4^+$ T cells and antigen-presenting cells for primary *in vitro* generation of $CD8^+$ cytotoxic T cells against L^d-binding self-peptide p2Ca

638 **P. K. E. Trinder, D. Faust, F. Petry & M. Loos:** Modulation of mRNA expression and secretion of C1q in mouse macrophages by anti-inflammatory drugs and cAMP: evidence for the partial involvement of a pathway that includes cyclooxygenase, prostaglandin E_2 and adenylate cyclase

645 **É. Rajnavölgyi, G. Fazekas, J. Lund, M. Daeron, J.-L. Teillaud, R. Jefferis, W. H. Fridman & J. Gergely:** Activation of effector functions by immune complexes of mouse IgG2a with isotype-specific autoantibodies

653 **M. A. Seelen, P. Athanassiou, W. A. Lynn, P. Norsworthy, M. J. Walport, J. Cohen & K. A. Davies:** The anti-lipid A monoclonal antibody E5 binds to rough Gram-negative bacteria, fixes C3, and facilitates binding of bacterial immune complexes to both erythrocytes and monocytes

662 **M. He, A. S. Kang, M. Hamon, A. S. Humphreys, M. Gani & M. J. Taussig:** Characterization of a progesterone-binding, three-domain antibody fragment (V_H/K) expressed in *Escherichia coli*

669 **V. M. Bowles, M. R. Brandon & E. Meeusen:** Characterization of local antibody responses to the gastrointestinal parasite *Haemonchus contortus*
